
✓ EASY

Scrubs are laundered, delivered, and loaded into the *scrubXchange* dispenser by a laundry professional - taking the day-to-day burden of scrub management off your shoulders.

✓ FAST

With a dispense time of 10 seconds, *scrubXchange* provides scrubs faster than other high-capacity scrub dispensers.

✓ PROACTIVE

Real-time data reporting and customized alerts provide insight into size utilization and scrub inventory, improving staff satisfaction.

Say goodbye to the hassle of scrub management.

TAKE THE HEADACHE
OUT OF SCRUB
MANAGEMENT

DELIVER 5-STAR SERVICE WITH
THE *scrubXchange* PROGRAM

scrubXchange

THE PROBLEM

Maintaining scrub inventory is a huge issue for hospitals, with thousands of dollars spent annually filling inventory gaps due to lost and stolen scrubs. Low inventory and open linen carts make it harder for physicians to get the scrubs they need when they need them.

With 40% of scrub usage coming from unauthorized users, it's nearly impossible to get a handle on scrub management in today's fast-paced healthcare environment...

...UNTIL NOW.

THE SOLUTION

The *scrubXchange* Program is a fully outsourced scrub service that takes the burden of scrub management off your shoulders.

- **SCRUBS:** Quality scrubs are provided to your organization to promote a professional appearance to patients and visitors.
- **AUTOMATION:** The secure scrubXchange dispenser ensures scrubs are always available when they are needed.
- **DELIVERY:** We fill the exchange cart with clean scrubs, deliver it to the hospital and load it into the dispenser.
- **PROCESSING:** We process the scrubs according to national standards for healthcare apparel.

IMPROVE SURGEON SATISFACTION WITH THE *scrubXchange* SOLUTION

HOW TO USE

SCAN
your hospital ID

ALIGN
and open the door

COLLECT
your scrub

THE BENEFITS

BETTER SERVICE: The *scrubXchange* program re-engineers scrub management, reducing labor for your hospital staff while increasing physician satisfaction.

LOWER COSTS: The automated dispenser deducts and adds user credits as scrubs are removed and returned. This ensures scrubs are returned and virtually eliminates scrub losses and the extra charges that come with it.

INFECTION PREVENTION: Enclosing scrubs in a secure dispenser drives compliance with AORN Guidelines for Surgical Attire, helping reduce the risk of surgical site infections.

By controlling scrub access with *scrubXchange*, hospitals can feel confident that scrubs are no longer walking out the door and staff are guaranteed convenient, hassle-free scrub availability when they need them.

Alleviate your biggest headache

- ✓ Laundry delivers and replaces carts, taking the worry out of scrub management
- ✓ Digital pictures from receiver drive accountability and compliance
- ✓ Available in two sizes to accommodate various capacity levels
- ✓ *scrubXchange* has a dispense time of just 10 seconds
